Flat 38 22 Henry bird way NN48GL
Graduate Software engineer
Phone: 07517171395   **E-mail:** khalilaliyu496@gmail.com

website: https://ibrahim496.github.io/My-main-portfolio/

highly motivated and innovative graduate software engineer with a strong foundation in software engineering and a passion for creating efficient and elegant software solutions. Having honed my skills in programming, machine learning, problem-solving, and software development methodologies. During my academic journey, I excelled in coursework related to algorithms, data structures, and software engineering principles. My final year project, facial recognition attendance system for my university stands as a testament to my ability to design and implement complex software systems which I achieved a very good grade.

work History

2023-06 – 2023-07 Bright Network IEUK 2023 On Demand: Technology internship

Participated in the prestigious Bright Network IEUK 2023 On Demand Technology Internship, immersing myself in hands-on tech exploration and innovation.

Highlights:
Executed cutting-edge projects, applying technical skills to real-world challenges.

Collaborated with professionals, interns, and mentors for knowledge exchange and teamwork.
Developed proficiency in [mention relevant technical skills] through hands-on experience.
Networked with diverse tech professionals, gaining insights into industry trends. Gained valuable insights from tech experts, deepening understanding of the tech landscape.

This internship solidified my technical skills and ignited a passion for tech-driven innovation, setting a strong foundation for my tech career.
 Feel free to adjust the content according to your experiences and preferences while keeping it concise and impactful.

2018-01- 2018-08 Software Engineer Internship Student

Zerberced Limited, Abuja, FCT, Abuja

Enhanced collaboration between team membersby preparing meeting materials and taking clear notes to distribute to stakeholders.
Completed clerical tasks such as, copying anddistributing mail.

Proven ability to develop and implement creative solutions to complex problems.

Education

2019-01 -2023   **B.Sc. software engineering**   ordinary degree
                 Northampton university

2007-09 -2018-09 **High School Diploma,** *Titsall Global Schools - Abuja, Nigeria*

AREAS OF EXPERTISE

HTML

PHP

SQL

AWS

JAVA

JAVASCRIPT

CSS

SOFTWARE DOCUMENTATION

PYTHON

Flask

Projects

Facial recognition university attendance system
- Designed a web app facial recognition attendance system as my dissertation project.
- Enabled users to register and take their attendance for a specific course in a university.

Smart security camera
- Live video feed security system that detects objects and persons using yolov3
- Sounds an alarm when a person has been detected and saves the video.

Job Agency website
- A job agency website where jobs can be seen and applied for.
- Admin can add, delete, archive and post new jobs

eBay clone
- An eBay website clone that allows users to purchase and sell products.

Web game

- A web game made using JavaScript.
